

Julliana Almeida Piraciaba

Industrial Engineer · M.Sc. in Operations Research

linkedin.com/in/julliana-piraciaba · jullianapiraciaba90.github.io · Campos dos Goytacazes, RJ – Brazil

SUMMARY

Industrial Engineer graduated from UENF and Master of Science in Operations Research, with over 10 years of experience in strategic sectors such as Oil & Gas, port operations and technology. Throughout her career, she has worked at companies such as Inspectorate do Brasil (outsourced by Petrobras), Porto do Açu and Moffatt & Nichol, developing 3D computer simulation solutions, process modeling and data analysis. In recent years, she has expanded her focus into data and artificial intelligence, with training in Python, Power BI, SQL and Machine Learning at Data Science Academy. Global Finalist of the NASA Space Apps Challenge (2019) and author of a paper published at the XXIV SIMPEP.

PROFESSIONAL EXPERIENCE

Industrial Engineer

Dec/2022 – Feb/2024

Moffatt & Nichol Engenharia e Consultoria

- 3D modeling and simulation of material flow in port terminals using FlexTerm and FlexSim.
- Route optimization, capacity assessment and identification of operational bottlenecks.

Port Management Analyst

Feb/2020 – Dec/2021

Porto do Açu

- Monitoring of port activities and preparation of measurement reports.
- Process mapping with improvement proposals and KPI tracking.

Apprentice

Sep/2019 – Jan/2020

PediuFarma Tecnologia Ltda

- Process mapping and handling of MySQL and Firebase databases using Python.
- Data analysis to support decision-making.

Junior Engineer

Jul/2013 – Apr/2015

Inspectorate do Brasil (outsourced by Petrobras)

- Planning and control of anchoring activities. AHTS vessel monitoring.
- Reporting and presentation of performance indicators in management meetings. Process mapping.

Business Advisory Agent

Sep/2012 – Dec/2012

Instituto de Administração do RJ (SEBRAE)

- Field visits to small business owners to collect data and propose improvements.

Industrial Engineering Intern

Dec/2011 – May/2012

Petrobras

- Update and proposal of new operational performance indicators.

EDUCATION

M.Sc. in Industrial Engineering

Mar/2016 – May/2019

UENF — Universidade Estadual do Norte Fluminense · Operations Research

B.Sc. in Industrial Engineering

Mar/2008 – Jul/2013

UENF — Universidade Estadual do Norte Fluminense

TECHNICAL SKILLS

Microsoft Excel · Microsoft Power BI · Python · R · SQL · FlexSim · FlexTerm · Machine Learning · Operations Research · Discrete Event Simulation

LANGUAGES

Portuguese	French	English
Native	Advanced	Intermediate

COURSES & CERTIFICATES

- Python Programming Fundamentals – From Basics to AI Applications
Data Science Academy · 96 h · Apr/2026
- Python Fundamentals for Data Analysis, Data Science and Machine Learning
Data Science Academy · 64 h · Apr/2026
- Microsoft Power BI for Business Intelligence and Data Science
Data Science Academy · 72 h · Apr/2026
- Big Data Fundamentals 3.0
Data Science Academy · 12 h · Oct/2022
- Introduction to Data Science 3.0
Data Science Academy · 12 h · Sep/2022
- Simulation Fundamentals with Arena
PARAGON · 20 h · Jul/2021
- Excel Scout
Talent to Training · 5 h · Apr/2020
- Introduction to Python
Alfahelix · 2 h · Aug/2019

AWARDS & HIGHLIGHTS

- **Selected Entry — Karen Abecia Dashboard Contest**
Jun/2020
- **Global Finalist — NASA International Space Apps Challenge**
Oct/2019
- **Best Paper — XVI Graduate Studies Exhibition (UENF)**
Oct/2016
- **Teaching Assistant in Introduction to Probability and Statistics — UENF**
Mar/2010 – Mar/2013
- **Academic Support Scholarship Holder — UENF**
Jul/2008 – Sep/2009
- **Linguistic and Cultural Exchange in France**
Oct/2006
